TIPS FOR USING THIS JOURNAL

If you are anything like me, you find your mind wandering when you pray. One minute you're praying for healing + restoration, and the next you are debating where to eat lunch. Writing out your prayers in letter form not only helps you focus, but also allows you to go back and read past prayers to see how God has shown His faithfulness.

There are so many ways to study the Bible, but keep in mind...we want to read the Bible for TRANSFORMATION, not just information. That is how a journal can be very helpful in recording what God is doing in you through the power of His Word. Whatever format works for you, stick with it! However, if you are new to this whole thing, here's something that might help you. Read a short passage of the Bible, no more than a chapter. (Psalms or Proverbs would be a good starting point) Then, read it again. Read it slowly and don't glaze over the parts that you think you already know.

In your journal, write down observations about the passage. Maybe write out the main point or circumstances in your own words.
